Sneha Kulkarni

sneha.k@example.com

Education

- B.E. Electronics and Communication, 2027. CGPA: 8.6/10

Skills

- Embedded C, C++, Python
- Microcontrollers (STM32, Arduino), FPGA, Verilog
- Analog Circuits, Digital Electronics, PCB Design (KiCad)
- MATLAB, Signal Processing, IoT

Experience

- Hardware Intern, Bosch (2026): firmware for a CAN-bus sensor node on STM32.

Projects

- Smart Energy Meter: IoT meter with an STM32, custom PCB and MQTT dashboard.
- FPGA Audio Equalizer: real-time digital signal processing in Verilog.
